9. New Business

a. Discussion and possible action to send a letter to CD 5 and CD10 (and maybe all CD's and the Mayor) to open a council file to explore drone-as-a-first-responder programs that allow LAPD to utilize drones to combat crime. In addition, request that the CD's supply the LAPD with financial assistance to install and utilize ALPRs and CCTV cameras similar to the system used in the city of Beverly Hills. Drones and use of ALPR and CCTV cameras would boost the LAPD's ability to do their job and increase public safety. Background: Since 2019 the LAPD has lost thousands of officers. Recruitment is down. We currently have 8800 sworn LAPD officers, far below Mayor Karen Bass' goal of 9,500 and about 300 below what the current budget allows, roughly 9,300 officers. In 2019, the LAPD had 10,008 sworn officers. Drones and use of ALPR and CCTV cameras would boost the LAPD's ability to do their job and increase public safety.

Motion for the SORO NC to write a letter to all of the Councilmembers, (cc Mayor Bass and the Police Commission) to open a council file to explore drone-as-a-first-responder programs that allow LAPD to utilize drones to combat crime. In addition, request that the CD's supply the LAPD

with financial assistance to install and utilize ALPRs and CCTV cameras similar to the system used in the city of Beverly Hills. Drones and use of ALPR and CCTV cameras would boost the LAPD's ability to do their job and increase public safety.
